

SECRET

26 April 1951

MEMORANDUM FOR: CHIEF, INSPECTION AND SECURITY

Att: Alien Affairs Officer

SUBJECT: Dr. Gustav Hilger

1. This case is familiar to this office as we took part in the original entry and were familiar with the surrounding circumstances. At that time consideration was given to the problem of entry for permanent residence, but as it was thought possible or even probable that Dr. Hilger would return to Germany to take his part in German national affairs, it would have been incompatible to seek entry for permanent residence at that time.

2. Since it is ADPC's desire that Dr. Hilger's status be adjusted to permanent residence and Dr. Hilger expresses his desire and intent to remain in this country, it appears now that it would be in the national interest to seek adjustment of status. His demonstrated capability in assisting the functions of this Agency alone indicates that permanent residence is in the best interest of the national intelligence mission.
